Score Breakdown

Check	Score
Level	20/20
Clipping	20/20
Speech clarity	20/20
Low-end balance	15/15
Harshness	10/10
Noise	10/10
Stereo	5/5

Top Issues

No prioritized issue was detected in the first-pass analysis.

Beginner Troubleshooting Guide

The speech sample has no major first-pass issue. Confirm the result with a listening check.

1	Play the sample through normal listening speakers or headphones.
2	Confirm the speech is easy to understand before saving it as a reference.
3	Keep the current gain and EQ settings unless the listening check finds a problem.
